INTERACTIVE GAMEBOARD!

USE WHOLE OR SMALL GROUP

The image shows a laptop screen displaying an interactive gameboard. The gameboard is a path of 22 numbered spaces (1-22) starting from a yellow 'START' box and ending at a pink 'FINISH' box. The path is shaped like a large 'U'. Each space has a different color and some have specific instructions like 'MOVE AHEAD 1 SPACE' or 'MOVE AHEAD 2 SPACES'. A 'BONUS?' section in the middle contains a 2x4 grid of icons representing different desserts. A 'MOVABLE GAME PIECES' section shows six colored pins. To the right, an 'INSTRUCTIONS' box lists five rules. In the foreground, several red dice are scattered, suggesting the game involves rolling a die to move.

INSTRUCTIONS

1. Pick a game piece and place it on "start". Decide who goes first.
2. That person rolls the die and moves their game piece that number of spaces.
3. Follow the instructions on the spot or answer that numbered question from the question board.
4. If you answer correctly, roll again. The spot you land on is the question you answer on your next turn.
5. If incorrect, you stay where you are and try the same question again on your next turn.

Sandra gazed through the window at the world outside. It was so different now. Instead of kids playing in the playground across the street, all she saw was an empty school yard. Who would have thought a few months ago that everything would change like it had. It was almost like she was living in a movie.
