WORKING SCOREBOARD

The scoreboard works **ONLY** in the PowerPoint version. Google Slides, unfortunately, does not have the same capabilities so you will need to track the scores on that version.

INTERACTIVE GAMEBOARD

The point values only disappear after used on the Powerpoint version. Google Slides, unfortunately, does not have the same capabilities so you will need to keep track with the included question tracker.

The image shows a digital gameboard interface. At the top, there are five columns labeled 'TOPIC 1' through 'TOPIC 5'. Below each topic label is a grid of point values: 100, 200, 300, 400, and 500. Each cell in the grid contains a point value and has a small white arrow pointing to the right. The grid is set against a dark background with colorful dotted borders around each cell. At the bottom of the interface, there is a large white text input field with the placeholder text 'TYPE TOPIC HERE'. To the right of the input field is the 'GAME SHOW' logo in colorful, stylized letters. Further right is a red circular button with the text 'RESET PAGE' in white.
