WORKING SCOREBOARD

The scoreboard works **ONLY** in the PowerPoint version. Google Slides, unfortunately, does not have the same capabilities so you will need to track the scores on that version.

INTERACTIVE GAMEBOARD

The point values only disappear after used on the Powerpoint version. Google Slides, unfortunately, does not have the same capabilities so you will need to keep track with the included question tracker.

The image shows a digital gameboard interface for 'Text Structure Game Show'. It features a grid of 30 question cards arranged in 6 rows and 5 columns. The columns are labeled: DEFINE (pink), CLUE WORDS (orange), TITLES (green), EXAMPLES (teal), and PASSAGES (purple). Each card displays a point value: 100, 200, 300, 400, and 500, increasing from top to bottom. To the right of the grid are two vertical arrows (red and teal) above the text 'TEXT STRUCTURE GAME SHOW'. Below this are two buttons: 'SCORE BOARD' (grey) and 'RESET PAGE' (pink).

DEFINE	CLUE WORDS	TITLES	EXAMPLES	PASSAGES
100	100	100	100	100
200	200	200	200	200
300	300	300	300	300
400	400	400	400	400
500	500	500	500	500

QUESTIONS

STORY STRUCTURE FOR 200

Miles grabbed his duffel bag and left the police station in a hurry, ready to get out on his rounds. After driving for a while, he found his suspect. He reached into the passenger's seat for the duffel bag and rummaged for his spy camera, only to find that it was missing! Miles specifically remembered placing the camera in his bag. Tracing his steps in his mind, he only remembered bumping into the new recruit at the front desk. Remotely, Miles activated the spy camera and was surprised to see a plate of tasty donuts in front of the camera. "Ugh, he really thought it was a pen!" Miles sighed, before turning around to return to the police station and retrieve the pen from the rookie officer.

What is the **conflict** of the story?

CATEGORY 5: DISCOVERIES IN SPACE

Students are given passages for the 5 types of text structure and they must state which type of text structure (description, cause & effect, compare & contrast, problem & solution, and chronological order/sequence).

PASSAGES FOR 100

Landlines: Necessary or a Thing of the Past?

Some people may question whether they need a landline and a cell phone but there are actually advantages to owning each. While both can make phone calls to anywhere, a landline restricts you to your home. On the other hand, a cell phone can be used almost anywhere! Cell phones have the ability to take pictures, go on the Internet, and even entertain you with games and apps. A landline is used only for calls but is a better choice in an emergency. Another similarity is both offer call forwarding, voice mail, caller ID and other basic features.

PASSAGES FOR 200

Negative Effects of Too Much Screen Time

Children, ages 8-18, spend an average of 7 hours on screens each day! Due to so many screens, including computers, tablets, phones, and televisions, kids today have many more opportunities to be in front of screens each day. Being on screens too much can cause you to miss out on socializing with family and friends. Instead of hanging out with friends, kids are just texting them. As a result of too much screens, it can make it more difficult for you to recognize emotions of others. Limiting screen time to 2 hours per day will cut back on some of these negative effects.

PASSAGES FOR 300

Cell Phones: From Luxury to Necessity

Cell phones were first introduced in 1983 and cost about \$4,000. At that time, they were considered more of a luxury. They were bulky, and the battery lasted a mere 30 minutes. By 1993, the first smartphone was introduced, but by today's standards it wouldn't seem very smart at all. The first iPhone wasn't released until 2008 and quickly became competition for the Blackberry. By 2016, the vast majority of Americans owned some type of cell phone. Many people these days don't go anywhere without it.

PASSAGES FOR 400

Texting and Driving: Tips to Keep You Safe

With the increasing popularity of texting and social media, some people are tempted to use their phones while driving. This can be a big problem and is a major safety concern for motorists. If your phone is a distraction, there are some tips to keep you focused on the road. One option could be to turn your phone to "silent" or even "off" while driving. You will still get all notifications once you turn it back on and after you've arrived safely. Another tip you could try is to put your phone out of reach. There are even apps that prevent texting while driving!
