# WORKING SCOREBOARD

The scoreboard works **ONLY** in the PowerPoint version. Google Slides, unfortunately, does not have the same capabilities so you will need to track the scores on that version.

# INTERACTIVE GAMEBOARD

The point values only disappear after used on the Powerpoint version. Google Slides, unfortunately, does not have the same capabilities so you will need to keep track with the included question tracker.

The image shows a digital gameboard interface. It features a grid of 30 question cards arranged in 6 rows and 5 columns. Each card has a colored header with a category name and a numerical point value. The categories are: Print Features (blue), Graphic Features (orange), Organizational Aids (pink), Multiple Choice (yellow), and Mixed Bag (green). The point values range from 100 to 500. To the right of the grid, the text 'TEXT FEATURES GAME SHOW' is written vertically. Below this text are two buttons: 'SCOREBOARD' (grey) and 'RESET PAGE' (red).

Print Features	Graphic Features	Organizational Aids	Multiple Choice	Mixed Bag
100	100	100	100	100
200	200	200	200	200
300	300	300	300	300

## GRAPHIC FEATURES FOR 500

What text feature is being shown?

★ ★ ★ ★ ★  
"I WISH I FOUND THESE SOONER! I BOUGHT THEM TO USE FOR TEST PREP, BUT THEY WOULD'VE BEEN PERFECT DURING THE YEAR AS PRACTICE FOR EACH TOPIC. MY STUDENTS HAVE BEEN SO ENGAGED AND LOVE ADDING A LITTLE BIT OF COMPETITION TO CLASS."

## MIXED BAG FOR 300

Which text feature is being shown?

### Central Nervous System

**Brain**  
Your brain controls all functions in the body. This includes things like breathing, having a heartbeat, moving your arms and legs, etc. The brain controls these functions by sending and receiving messages through the nerves.

**Spinal Cord**  
The spinal cord is the main pathway that connects the brain with the peripheral nervous system. It is protected by your spinal column, which is a long series of bones called vertebrae.
