Teachers all over are loving this resource!

★★★★★ Extremely satisfied

This was a great resource! The students were able to use it to refer back to while identifying the figurative language in the novel we were reading. They also enjoyed seeing what "treats" were on the next type of figurative language. Thank you for sharing!

★★★★★ Extremely satisfied

I loved this resource! I used this with my students who did not understand figurative language during my tier 1 instruction. This was a great reinforcement!

★★★★★ Extremely satisfied

This is a fantastic resource! I used the digital version on my screen while my students filled in the workbook. We wrapped up our figurative language unit with this flipbook and it was the perfect overall review. Loved it!
